

Avaya IP Office IP Office 500 Communications Server

Simple, Powerful Communications for Small Business

Successful companies are always looking for new ways to do more with less—keeping their business flexible, innovative and competitive without driving up operating costs and capital expenses. Avaya puts the solution at your fingertips: the Avaya IP Office communications system.

Avaya IP Office is the right choice for any small business today—whether you are 5, 25 or 250 employees... just getting started or already established...have a single office, a home office or multiple stores/sites.

Avaya IP Office unifies your communications, providing your employees with a solution that lets them handle all their business communications on the device of their choice: their laptop, mobile phone, office phone or home phone— using wired, wireless or broadband connections.

Modular
 Scalable
 Reliable

- 👍 Up to 384 users
- 👍 Just add as you grow
- 👍 Network up to 32 sites

Versatile
 &
 "Green"

- 👍 Go pure IP or the right mix you desire
- 👍 Save energy where you don't need IP

Easy to
 Manage

- 👍 Complete set of menu-driven tools, including audit trails
- 👍 Administer moves, adds or changes – locally or remotely

Smart,
 Built-in
 Value

- 👍 Auto call distribution to customized routes
- 👍 Integrated, customizable firewall & router
- 👍 Powerful Voice Mail features standard (speech to text)

Because there is no “one size fits all” when it comes to telephones, Avaya has designed a range of different models.

Take advantage of deskphones and/or lightweight wireless models. Get fully-featured sets for your executives, extensive call handling capabilities for receptionists or “just the basics” for phones located in common areas.

And Avaya makes the choice even easier by offering both traditional digital phones and IP-based models.

Matching the right phone to your employees’ needs helps ensure they’ll get the most from your Avaya IP Office communications system—and you’ll get the most from your budget.
